

Mylanta[®]

MYLANTA Maximum Strength Liquid Antacid + Antigas Now in barcoded, unit-dose for medication management systems

WHY MYLANTA:

CLINICALLY EFFECTIVE:

Powerful relief of heartburn, acid indigestion, and gas.

FAST RELIEF:

Starts to work on contact in seconds.

REDUCED PHARMACY LABOR COSTS:

Barcoded unit-dose sachets reduce time and effort in the pharmacy - no repackaging for medication management systems required.

MODE OF ACTION:

Non-Systemic.

EASY TO ADMINISTER:

No need for water; easy bedside dispensing with the tear-off spout.

CLINICAL PROFILE:

- Mylanta's coating action and acid neutralizing capacity quickly relieves the acid caused by refluxed stomach acid into the esophagus.
- Each 10 mL dose contains 800 mg Aluminum Hydroxide, 800 mg Magnesium Hydroxide, and 80 mg Simethicone for multi-symptom relief.
- Mylanta has the highest acid neutralizing power – One 10mL dose of Mylanta Maximum Strength has a 45% higher ANC than TUMS¹

¹ Based on 1 dose of Mylanta Maximum Strength vs 1 dose of TUMS[®] Extra Strength. Acid neutralization does not imply relief. Data on file.
